PROFESSIONAL SUMMARY

Full stack developer experienced in building and shipping production web applications with Next.js, Node.js, and Firebase. Delivered end-to-end features across three live platforms — AI-powered learning tools, real-time bidding, and workforce management — covering auth, payments, dashboards, and analytics, with a strong QA testing foundation.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, HTML, CSS, GSAP

Backend: Node.js, Express.js, REST APIs, JWT Authentication, OAuth (Google & Apple)

Databases: MongoDB, Firebase (Firestore, Auth), SQL

Tools & Platforms: Git, GitHub, Vercel, Railway, AWS, Stripe, RevenueCat, Nodemailer, Twilio, Google Maps API, Figma, Postman

Testing: Manual Testing, Functional Testing, Regression Testing, Bug Tracking, API Testing (Postman)

Other Languages: Java (Basics), C/C++

EXPERIENCE

Full Stack Developer & QA Tester — Goodpegg

[July] – Present

- Developed and shipped full stack features across three production web applications using Next.js, Node.js, and Firebase, owning work from requirements through deployment.
- Built and integrated REST APIs connecting frontend interfaces with backend services, ensuring smooth data flow and reliable application workflows.
- Performed functional, regression, and user acceptance testing; created and executed [X]+ test cases, documented defects, and drove resolution with the development team, reducing production bugs.

PROJECTS

KASI — Medical EdTech Platform (Norway)

Next.js, Firebase, Claude AI, Stripe, RevenueCat, OAuth

- Developed backend services on Firebase covering database architecture, security rules, and authentication workflows for a subscription-based medical learning platform.
- Implemented secure Google and Apple OAuth sign-in, enabling one-tap access for users across web and mobile.
- Integrated Claude AI to power interactive quizzes, educational games, and adaptive learning experiences.
- Built subscription billing with Stripe and RevenueCat, plus an admin panel for managing users, subscriptions, and platform activity.

Dealync — Real-Time Vehicle & Property Bidding Platform

Next.js, Firebase, Google Maps API, RazorPay

- Built both User and Admin panels for a real-time bidding platform supporting live price updates and instant notifications.
- Developed listing creation with map-based location selection, bidding flows, lead management, and collaborator access controls.
- Implemented shareable live listing links with QR codes, and analytics dashboards tracking engagement, bidding activity, revenue, and platform performance.

Goodpegg Attendance Management System

Next.js, Node.js, Firebase, Nodemailer

- Developed Employee and Admin panels covering check-in/check-out, lunch breaks, attendance recording, and workforce monitoring for [X] employees.
- Built leave approval/rejection workflows with automated email notifications via Nodemailer.
- Automated monthly reporting on attendance, late arrivals, leave statistics, and employee performance, replacing manual tracking.

EDUCATION

BCA — Sanatan Dharma College, Ambala Cantt | 75.6%

2022 – 2025

Class XII (Commerce) — Lord Mahavir Jain Public School | 87%

2021 – 2022

Class X — Lord Mahavir Jain Public School | 90%

2019 – 2020

CERTIFICATIONS

- Tata Data Visualization — Forage (2025) • NumPy & Pandas for Beginners — Udemy (2025)
- Web Designing — Engineer's Hub (2024) • Python Development — Engineer's Hub (2024) • C Programming — Hridey CC (2023)
